**DETAILED ACTION**

1. Claims 1-8 are presented for examination.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not support the claimed limitation of "the deletion sequence being different from both the recording sequence and a reverse of the recording sequence" [see claim 1, lines 9-11].

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a. The intended means for "program means" in line 2 is unclear. The claim is directed to a computer program product. Should "program means", in line 2, be replaced with – program codes executable by a computer--? Furthermore, "code means" in lines 5 and 8 should be replaced with –program codes—.

Art Unit: 2187

***Allowable Subject Matter***

- b. The allowability of claims 1-8 will be determined when the claims are amendedd to overcome the rejections under 35 USC 112, as set forth above.
